

TORcomm

Preformed Motorway/Highway communication chambers

Torrent Water Management offer **TORcomm** chambers to suit NG 1500 Highway Communications requirements. The units are preformed off site to speed up the site installation process and reduce waste. They are manufacture from **100% recycled mixed Polymers** complying with BS 5834-4 and tested to **D400** loading in accordance with **BSEN124**. (Lloyds British)

The chamber can be supplied with either steps or ladders dependent on site requirements. Chamber accessories available on request.
